<b>Long Methodology Statement</b>	
<b>Effective sample size after weighting applied</b>	1035
<b>Margin of error associated with effective sample size</b>	±3.1
<b>Variables used in weighting</b>	Age x gender x location, Age x education, AEC region x household income
<b>Weighting method used</b>	Rim weighting
<b>Full question text, responses categories and randomisation</b>	See below
<b>Proportion of landline/mobile completed interviews</b>	N/A
<b>Source of online sample</b>	Selected from previously recruited online panels of research participants to fill quotas loosely based on weighting frame and past vote
<b>Positioning of voting intention questions in questionnaire?</b>	Immediately after demographics
<b>How were undecided voters handled?</b>	Undecided respondents who answered “don’t know” were asked a leaner question which also included a “don’t know” option. Those who answered don’t know were excluded from published voting intention figures but not from the survey. 7% were thus excluded from published voting intention figures.
<b>2PP calculation method</b>	Calculated according to preference flows at previous federal and state elections
